

# PaymentWorks

“ We had PaymentWorks up and running for less than 90 days when they stopped a vendor impersonation fraud attempt for us. As far as I am concerned, PaymentWorks has already paid for itself.”

**RICK GAY**, Director of Procurement Services,  
Spring Branch Independent School District

“ I sleep better at night now that we have PaymentWorks.”

**DOMINICK CHASE**, Chief Financial Officer and SVP for Business Affairs,  
Ivy Tech Community College

“ We haven't had an IRS fine since we implemented PaymentWorks. That is real value for us.”

**JULIE ANN WHITE**, Vice President, Treasury Shared Services,  
Clean Harbors

“ If we had not had PaymentWorks before the shutdown? It would have been impossible to continue our work uninterrupted. The automation aspect has been key for our team keeping afloat while remote.”

**EMILY HERMON**, Manager, Accounts Payable,  
Kent State University

“ We had a fraud attempt that PaymentWorks was able to catch for us. It was an account takeover attempt where we had invoices queued up to be paid in the following weeks. PaymentWorks caught it before any changes were made in our vendor master file.”

**MICHAEL JAMES GIUFFRE**, Business Analyst,  
Tufts University

“ Using PaymentWorks prior to beginning its integration with SAP gave us several advantages: we were able to move quickly to launch the platform, we needed very little internal IT resources involved, and we had time using the app in our real business environment, allowing us to understand how we wanted the information flow and processes to work. **In short order, we were able to see value for our investment in 3 months, and used our real experience using it to make an efficient and specific plan for our integration.**”

**TISHA MARSHALL**, *Director of AP*  
*University of Tennessee, Knoxville*

“ **I wanted to send a big THANK YOU to the fraud operations team and especially your support team for all their help.** This is the year-end month for most Universities. Everyone needs everything done NOW (and I mean NOW) and we are all in crazy mode. Your team has been quick and efficient and I wanted to sing their praises.

**LISA DOHERTY**, *Vendor Maintenance*  
*Texas State University*

“ Putting in place such a key piece of technology to support our vendor management has increased our efficiencies, while adding layers of security and compliance. **Choosing PaymentWorks for our vendor onboarding process is an investment I know will continue to have an impact** for the South Dakota Board of Regents long after I have gone.”

**JANET PETERSON**, *Director of Shared Services*  
*South Dakota Board of Regents*
